

Dear Debbie,

I wanted to share with you something miraculous that has occurred for me that I feel has been the result of my healing experiences with BioGenesis!

I came to my 1st BioGenesis workshop in August 2007 at Marie Dahle's recommendation. (She has been such an ANGEL for me.) I was diagnosed with congestive heart failure in 2/2007. I was having difficulty then with adjusting to the medication and experiencing some depression. I was also having difficulty with focusing on whatever was taking place around me. However, with great determination, I made arrangements to be at this workshop. A way was even made for me to stay with a woman I had just met, so I wouldn't have to drive back across town that night! I truly had no idea then just how wonderful this experience was going to be for me! I did, however, feel I was definitely suppose to be there (a Spiritual thing!).

After the morning introduction of the tools, it was suggested for the afternoon healing session that I ask for the integration of the medicines to one another and then for the integration to my body. After that 1st healing session, I slept well and awoke feeling awake and with more energy than I had before! I was so excited!!! and the depression seemed to have lifted! I was even told later by several people who attended the workshop as to how much better I looked on that Sunday! I set about to order my first tools - the BioOscillator - because of its ability to remove negativity and toxins (both in me and in my relationships) - and the Dark Violet Progress Ring, to keep my consciousness uplifted!!! I thought it was worth the cost for that!

My healing continued and I was able to purchase the Multicolored Pyramid (to bring harmony to my home environment, which it has) and the Flame (which has been of assistance for a variety of things). I was able to purchase the Wand in June 2008.

Even though I developed Shingles after the June 08 workshop and did not consider BioGenesis for its healing (at least not right away), I do feel now that the BioGenesis sessions and my use of the BioGenesis tools has contributed to the removal of negative programming within me and me being connected with the practitioners I have needed in order to assist with the healing needed at the time.

It appears that one of these connections was more important than I realized. It was related to the Shingles issue. I was guided to a chiropractor who used muscle testing to determine (among other things) that I had a viral infection in my body!!! He suggested Olive Leaf (an herb)

and suggested I take this for a month. Some complications kept me asking if this was what I really needed to do?!?!? It was suggested **strongly** to me that it was! and so I did.

I missed one BioGenesis workshop as I had "lost faith" in what the tools were actually doing...and yet, I had begun to use the BioOscillator, Flame and Wand again! From all the above (including a session w/Margaret), I was cleared of both the bacterial infection (again guided to an M.D. who accepted payment based on my income for a Rx of an antibiotic) and the viral infection I had in my body. Amazingly enough, I also began to notice a difference in my physical energy and how much more I was able to do each day!

I was also directed to Gwinnett Medical Center and a program they have for people like myself who do not have insurance and WAS APPROVED for an electrocardiogram (which gives a picture of one's heart) which happened 12/14/08. On Jan. 8, 2009, I saw the cardiologist who explained that the picture of my heart now showed **NO ABNORMALITY** and my ejection fraction had gone from 25% to 55%!!!! I'm sure you can imagine my amazement! Even though I could tell I was feeling better...just so incredible to hear it was confirmed by a doctor and scientific **PROOF!!!** She told me, without knowing about the chiropractor, there was information now showing that sometimes a viral infection can cause the symptoms I had and when the infection was cleared, the symptoms did, too!!!

As much as I now believe in the capabilities of these tools to provide healing, I have also become aware of the spiritual nature they have, as well. I continue to place ALL situations of concern on my prayer tray for treatment and under the pyramid for issues of a global nature, most confident of their resolution - eventually!

Speaking of resolution, I had asked at the December workshop "that I move to the next level"!!! In fact, I am physically moving to a place March 1st that is a "suite of rooms" (from the bedroom I have been living in) which will accommodate ALL of "my stuff" and there is room for more!!! (a "heart" desire I have had for several years) I was actually contacted by these owners (since the workshop), thru a series of events; they had the space available and were wondering if I needed a place to live! And still it has taken several days for me to say, "Yes." I figured if God brought this to me, that was what I was meant to do. AND it is at my favorite place, Lake Lanier!!! Like so many other programs that I have been involved in..**IT WORKS IF YOU WORK IT!** and sometimes we have to FAKE IT until **WE**

MAKE IT!!!

I wanted you to know this because you have been instrumental in bringing BioGenesis to Atlanta and in continuing to make these workshops happen. I can now **AFFIRM** with you that these tools do make a difference in one's life!!! in whatever ways we are willing to accept. I am so glad that I was able to return to their use and that I am now in the place - body, mind, spirit & emotionally - that I have desired for quite awhile.

I continue to marvel at the unfolding of events in my life. I have been grateful every day for sometime now and thankful of every wonderful "happening" in my life (regardless of how it looked). I still include people and world situations on my "platter" for BioGenesis healing. I do **BELIEVE** that this is assisting with the resolutions I now see!!!

THANKS AGAIN!!! FOR ALL THAT YOU DO AND ALL THAT YOU ARE!!!

Many Blessings of Love, Peace, Joy and Harmony,
Barbara McInturff
